

Kodiak Canvas Size/Fit Guide for
Truck Bed Tents

Model 7206 (Full-sized Short)

This model fits full-size trucks with the standard truck beds (5.5 to 6.5 ft. long) measured with the tailgate in the up (closed) position:

Ford F-Series

Chevy Silverado

GMC Sierra

Dodge Ram*

Toyota Tundra

Nissan Titan

Model 7218 (Full-sized Long)

This model fits full-size trucks with 8-ft long truck beds -- measured with the tailgate in the up (closed) position:

Ford F-Series

Chevy Silverado

GMC Sierra

Dodge Ram*

Toyota Tundra

Nissan Titan trucks

Not compatible with smaller sized trucks.

Ford Ranger

Chevy Colorado

GMC Sonoma

Toyota Tacoma

Nissan Frontier

Not compatible with the following bed styles:

- 1) Flair side or step side beds the beds are narrower than a standard bed.

- 2) Flat Beds
- 3) Trucks with untraditional side boxes like Dodge Ram Box*.

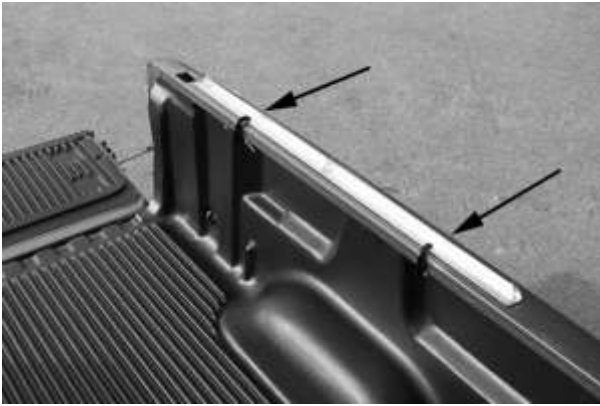

- 4) Trucks with obstructions on the bed rails.

- 5) You need a tailgate. Measure your truck bed with the tailgate up (closed). However, set your tent up with the tailgate down. You will not have a good result with trucks that do not have a proper tailgate.

Note that for assembly you will need to clamp mounting rails on top the truck bed rails (see image below). Clamps are included with the tent, but depending on your bed style and customization, specialized clamps may need to be purchased.
